**Hellcat** Sport Fish

Blue Fin Boats has once again shown why they are market leaders in the sports fishing field with the addition of the new 5.45mtr Hellcat to their range of boats.

Rated to 175HP this exciting new boat broke new ground for the company with the development of the 4mm plate hull that features a finer entry angle to complement the existing hull refinements that are inherent in their sports fishing designs.

Built tough this top of the range tournament boat has all of the trimmings expected in a well set up competition boat and includes twin sports consoles, honeycomb aluminium deck hatches with 316 stainless steel piano hinges and stainless steel deck hardware, plush hook less carpeting and deluxe racing style seating, rod locker and ample tackle storage in both the front and rear casting decks, a 140ltr live well fitted with a Flowrite Tournament Pro live well system featuring twin circulation pumps.

Set up for the serious recreational angler or Bass, Bream or Barra competitor, the Hellcat has an angled front sounder mount, electric motor pedal recess and electric motor bracket as standard and is pre wired at the factory ready for fit-up. The factory fitted wiring harness has a dual voltage system, BEP battery switches and BEP Contour Generation 2 splash proof switch panels.

The finish and attention to detail is complemented with racy decals and two pack paint work available in the colour of your choice
